**MEMORANDUM N. 15/2026**

### **Insight**

**Subject: Non-repayable grant of up to €4 million for large-scale R&D projects in Emilia Romagna**

Avv. Francesca Palladi

Dear,

We would like to draw your attention to an important opportunity offered by the Emilia Romagna Region to finance **research and development projects carried out in collaboration with universities or research centers**.

Minimum contribution of **30% as a non-repayable grant** up to a maximum of €4 million, minimum expenditure of **€2 million for SMEs and €3 million for large enterprises**.

Eligible expenses include personnel, consulting, and prototype development.

It is mandatory to:

- **hire at least one** new permanent employee **with a master's degree in technical or scientific subjects**;
- **allocate approximately 10% of the budget** to consulting services provided by **universities or research centers** with which the company collaborates.

Investments in renewable energy production and, for SMEs, investments in production machinery can also be linked.

The Firm remains available for any clarifications.
